PROFESSIONAL SUMMARY

Highly motivated Computer Science undergraduate with strong foundation in software quality assurance, software development, and frontend technologies. Possesses working knowledge of HTML, CSS, SQL, APIs, and programming languages including Java, C and Python. Skilled in debugging, problem-solving, and cross-functional collaboration to deliver robust and high-quality software solutions. Detail-oriented and results-driven with strong communication and teamwork abilities, aspiring to contribute as a Software Quality Analyst.

TECHNICAL SKILLS

- **Programming Languages & Technologies:** Java, Python, C, JavaScript, HTML, CSS, SQL, XML
- **Software Testing & QA:** Manual Testing, Test Case Design, Functional Testing, Regression Testing, Bug Tracking, SDLC, STLC
- **Web & API Technologies:** REST APIs, API Testing, Web Development Basics
- **Tools & Platforms:** Git, AWS (Fundamentals), Azure (Basics)
- **Databases:** MySQL, Oracle, SQL Server, MongoDB
- **Core Concepts:** Data Structures & Algorithms, OOP, Operating Systems

EDUCATION

B.Tech – Computer Science Engineering (AI & ML Minor)
NIET, Greater Noida (2023 – Present)
CGPA: 8.35

Intermediate – Saint Dominic Savio College(2022)- 80.2%
Senior High School – Saint Dominic Savio College(2020)-84.3%

INTERNSHIP EXPERIENCE

- **Infosys Springboard Internship 6.0 – Infosys (Jan 2026 – Present)**
 - Worked on SDLC concepts and enterprise-level applications.
 - Collaborated with teams to ensure robust product development.
 - Applied debugging and problem-solving skills.
- **Java Development Intern – CodSoft (Jan 2025 – Feb 2025)**
 - Developed application logic using Java and OOP principles.
 - Performed debugging and issue resolution.
- **Android App Development Intern – CodSoft (Jun 2025 – Jul 2025)**
 - Conducted functional testing and validation.
 - Collaborated to improve application usability.

PROJECTS

- **E-Commerce Web Application(Solo Project)**
 - Built UI using HTML, CSS, JavaScript
 - Integrated REST APIs and SQL databases
 - Performed testing and bug fixing
- **File Sharing Platform(Solo Project)**
 - Developed system with APIs and authentication
 - Ensured reliability through testing

- **Carbon Emission Tracker(Group Project)**
 - Applied data validation and analysis
 - Verified outputs for accuracy
- **SonicScribe – Audio Notes Platform(Solo Project)**
 - Conducted usability testing and performance checks
- **AgroBot-AI Agricultural assistant(Solo Project)**
 - Developed AI chatbot to provide agricultural assistance using python,HTML,CSS,JavaScript
 - Integrated REST APIs and SQL databases
 - Performed testing and bug fixing

CERTIFICATIONS

- Data Structures & Algorithms (Java) – Infosys
- Data Structures & Algorithms (Python) – Infosys
- Programming Fundamentals – Python
- MongoDB Data Modeling

ACHIEVEMENTS

- GATE 2026 Qualifier
- Founder – KoolBank Startup Initiative

LEADERSHIP & ACTIVITIES

- Vice President, Coder’s Era Club
- Organized technical events

KEY STRENGTHS

- Strong communication skills
- Analytical and Problem-solving ability
- Detail-oriented and result-driven solution
- Effective team collaboration and adaptability
